Melassier Mixer

Мелассер

“Homogeneous Mixing for Nutrient-Rich Feed”

The Melassier Mixer is specially designed to mix molasses and other liquid additives evenly with powdered or granulated feed materials. Its efficient mixing system ensures a uniform distribution of liquids, improving feed palatability, nutritional value, and overall product quality.

Equipped with a robust mixing mechanism and precision-controlled liquid injection, the Molasses Mixer provides high mixing capacity with short processing times. It allows for continuous or batch operation, ensuring smooth integration into production lines and supporting high output efficiency.

Manufactured from high-quality stainless steel and corrosion-resistant materials, the Molasses Mixer is built for long service life under demanding production conditions. Its accessible design makes cleaning and maintenance fast and simple, minimizing downtime and ensuring reliable, hygienic operation.

Type Model	ØA	B	C	D	E	F	Motor Power Motor (kW)	Capacity (t/h) Kapasite	Weight Ağırlık
