Квадратный Фильтр

"Efficient Dust Control for a Cleaner Production"

The Square Filter is specifically designed to effectively capture fine dust particles generated during grain processing, milling, and conveying operations. Its optimized air flow system ensures efficient dust separation, helping maintain a clean and safe working environment.

Thanks to its compact square structure, the filter offers a large filtration surface in a minimal footprint. It provides high air flow capacity, making it ideal for installation in tight spaces without compromising performance.

Built from wear- and corrosion-resistant materials, the Square Filter ensures reliable long-term operation even under intensive working conditions. The modular design allows for easy filter element replacement and simple maintenance, minimizing downtime and ensuring continuous efficiency.

| Type Model | A | B | C | Torba Sayısı Number of Bags |
|------------|------|------|------|--------------------------------|
| KRM-SF 60 | 750 | 860 | 2400 | 12 |
| KRM-SF 100 | 750 | 1160 | 2400 | 20 |
| KRM-SF 120 | 1000 | 1260 | 2400 | 36 |
| KRM-SF 130 | 1120 | 1380 | 2400 | 49 |
