“Precision Measurement for Consistent Feed Quality”

The Dosage Scale provides precise measurement of raw materials, ensuring consistent feed formulations. Advanced sensors and intelligent control systems prevent over- or under-dosing, maintaining nutritional balance in every batch.

KM KAR-MILL
MACHINERY INDUSTRY

Engineered for modern feed production lines, the Dosage Scale operates quickly and efficiently, reducing manual handling and minimizing production errors. This helps maximize overall plant productivity while ensuring consistent product quality.

Built from durable, wear-resistant materials, the Dosage Scale offers long-term reliable operation under industrial conditions. Easy access for maintenance and cleaning ensures minimal downtime and uninterrupted feed production.

Type Model	Hopper Volume (Cbm) Kefe Hacmi	Weight Ağırlık
