

Flake Presi

Flake Press

Пресс Для Хлопьев

"Maximum Oil Extraction, Minimum Energy Consumption"

The Flake Press is designed to compress oilseeds or grains into thin, uniform flakes, optimizing the surface area for efficient oil extraction or further processing. Its precision-engineered rollers ensure consistent thickness and excellent flake quality in every cycle.

Equipped with a heavy-duty drive system and advanced pressure control, the Flake Press delivers superior flaking capacity with reduced power consumption. The balanced mechanical design minimizes vibration and wear, ensuring stable long-term operation.

Constructed from high-strength alloy steel and corrosion-resistant components, the Flake Press is built for continuous industrial use. The simple adjustment system and accessible design provide easy cleaning, maintenance, and quick roller replacement, minimizing downtime.
