

# Mikro Dozajlama

## Premix Dosing

### Микродозатор

*"Precision That Defines Feed Quality"*

The Micro Dosing System is designed to precisely measure and add micro-ingredients such as vitamins, minerals, and additives to feed formulations. Its high-accuracy weighing technology ensures perfect dosing consistency, enhancing feed quality and nutritional balance.

**High Performance**  
Высокая  
производительность

**Less Energy**  
Меньше  
Энергии

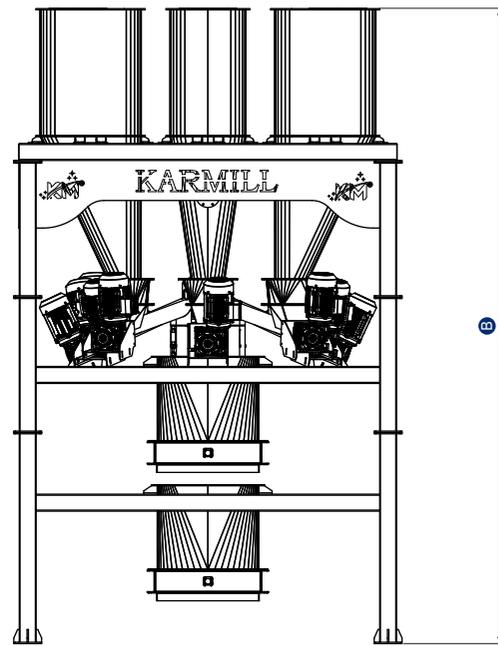

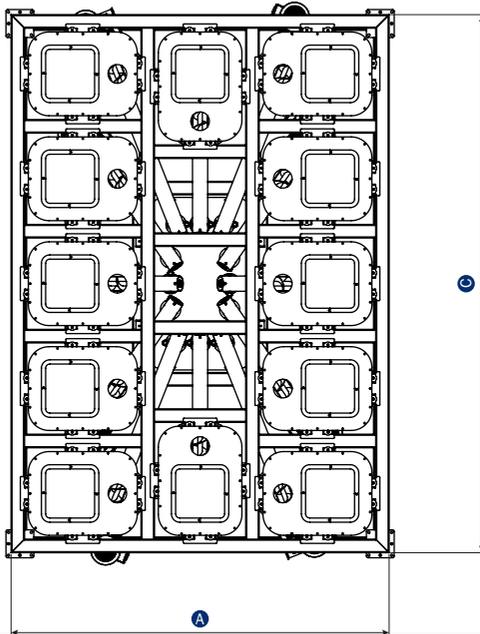

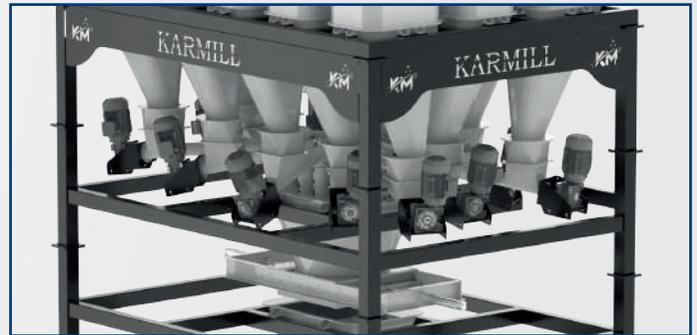

**Maximum Capacity**  
Максимальная  
емкость

Capable of handling multiple ingredients simultaneously, the system offers programmable settings for different recipes and batch sizes. Its modular structure allows easy integration into existing production lines, making it ideal for both small and large-scale feed plants.

Built from stainless steel and food-grade components, the Micro Dosing System guarantees hygiene, corrosion resistance, and long service life. The easy-clean design and automated control system minimize maintenance needs and ensure reliable, continuous operation.

Type Model	A	B	C	Motor Power Motor (kW)	RPM Devir (dev/dk)	Capacity (t/h) Kapasite
KRM-PD 4	1200	4550	1200	4x0.55	44	0.5-5
KRM-PD 6	1200	4550	1800	6x0.55	44	0.5-5
KRM-PD 8	1800	4550	1800	8x0.55	44	0.5-5
KRM-PD 12	1800	4550	2200	12x0.55	44	0.5-5
